

#360 Managerschutz

Manager haften mit dem Privatvermögen

MISSION

In addition to civil law liability for violations of obligations arising from the fields of activity, "organisation", "monitoring", "selection" and "planning", for managers there is also the risk of involvement in regulatory proceedings. For example, criminal proceedings, fines or administrative proceedings. Moreover, in the event of employment contract disputes (e.g. disputes concerning bonus payments, or similar performance-based payments) managers are exposed to high legal fees.

In addition to the suitable transfer of risk related to the issues cited above, by means of tailored insurance solutions, we also assist decision-makers, either upfront or as an ongoing partner, in the areas of "Compliance", "Corporate Governance" and "Risk Management".

I. Manager protection

- ✓ Preventative risk management, consulting and knowhow transfer
