Vacation homes

Cover for household contents, jewelry, valuables & buildings

Mission

Enjoy your lifestyle in your vacation residence without worries and benefit from an insurance concept that includes coverage of household contents, art, jewelry, watches and valuables in a single policy. All-risk insurance covers all potential risks that are not explicitly excluded by the terms of the insurer.

- Individual coverage options

- Inclusion of high-quality furnishings for household contents and buildings
- ✓ Coverage of high insured sums
- ✓ Coverage of indoor and outdoor pools
- Covers all damage to the building (with few exceptions)
- ✓ Covers jewelry and watches in a safe at the vacation residence
- ✓ Can be extended to include art coverage module

Team of Experts

Individual solutions

The protection of high-quality assets abroad requires individual solutions. As a specialized insurance brokerage, we understand your special requirements. Our excellent access to all specialized insurers in Germany makes it possible for us to offer you custom-tailored coverage concepts for your particular lifestyle.

Excellent service

We assist you in determining a sufficient insured sum for high-quality household contents, valuables, jewelry, watches, art and residences. You receive sound advice that is tailored to the special requirements of your personal assets. This allows us to provide fast, professional assistance – from risk and value assessment to choosing a suitable insurance company and, of course, processing of claims.

Carefree coverage for your vacation residence

Enjoy your vacation villa, weekend home or vacation home without worries, by taking out a vacation home insurance policy. Your retreat should give you one thing above all else: rest and relaxation! Damages in a vacation home that is not occupied can go unnoticed for a long time, resulting in high financial burdens.

Custom-tailored coverage for privately owned vacation homes abroad, in accordance with German standards

Imagine the following scenario: Instead of a cozy retreat, you arrive to a vacation home that is flooded by water that has been leaking from a burst pipe for days. More expensive than the actual repair of the burst pipe is the consequential damage, such as renovation and follow-up costs for the repair of the building's structural fabric. In the event of damage, you receive a claim that is processed in German and according to German standards. Since the terms of the policy are also in German, you can easily determine the extent of your coverage.

360° Service
