

### Mission

We protect your goodwill and see valuable art for what it is: Valuable property instead of normal business furnishings, which has to be set down in the terms.

#### Individual coverage options

- ✓ Art is insured against destruction, damage and loss due to all types of causes
- ✓ Co-insurance of mishaps
- ✓ Insurance coverage on all transport routes
- ✓ Option of restoration in case of partial damage
- ✓ Waiver of underinsurance clause
- ✓ Large network of experts if restoration is necessary in the event of a claim
- ✓ Coverage of art on loan to museums or exhibits

### Art expertise

We assist you in determining an insured sum that is appropriate to the artwork. You receive advice from experienced art historians and insurance specialists that is tailored to your particular art collection.

Our experience in this area allows us to provide fast, professional assistance – from risk and value assessment to choosing a suitable insurance company and, of course, processing of claims.

### Team of Experts

The ownership, handling or display of sensitive artworks increases the complexity of insurance coverage, since valuable art does not belong to the normal business furnishings.

When insuring highly valuable art objects, such as contemporary and historic paintings and drawings, valuable sculptures, unique collector's items perhaps on display in public facilities, art insurance for businesses provides full protection, while conventional business contents insurance runs up against limits.

All-risk insurance covers all risks that are not explicitly excluded by the terms of the insurer.

### Individual solutions

Insurance for art objects and collections is extremely sensitive and requires custom-tailored solutions. As a specialized insurance brokerage, we are familiar with the special requirements and offer excellent access to all art insurers in Germany. This allows individual coverage concepts that are tailored to the main emphasis of your collection.
