## VIP protection coverage Disability insurance with no medical exam

### Mission

The risk of occupational disability is high. Statistically speaking, this fate is suffered by every 4th job holder. The German Retirement Insurance Fund alone registers approx. 180,000 new members every year who become annuitants because of insufficient earning capacity. The reasons for a total loss of earning capacity/labor income are manifold and can range from mental illnesses to musculoskeletal disorders to cancer illnesses.

In many cases, insurance companies in Germany do not offer adequate solutions for groups of top-earning professionals who require appropriate insurance coverage that matches their high income. Our cooperations allow us to offer you the opportunity to benefit from the English insurance market.

### Highlights

- ✓ Exclusive for board members, directors and senior executives
- ✓ For the highest incomes – monthly annuities of up to EUR 250,000
