

HealthProtect⁺

Modern healthcare benefits for strong employers

HealthProtect⁺ is the modular health concept for companies. It bundles prevention, health services, and comprehensive protection, offering a solution that lessens the burden on companies and offers employees real added value in everyday life and in emergencies.

Your challenges – our solution

- Increasing absence from work puts a strain on teams and company goals.
- The competition for skilled workers makes attractive benefits more important than ever.
- Employees want health services that give them genuine added value.
- Health coverage should not begin with the onset of an illness.

HealthProtect⁺ supports companies in the active promotion of health and in anchoring it sustainably in everyday working life.

At a glance

- ✓ Available for as few as 5 employees
- ✓ No health checks
- ✓ Flexible modules
- ✓ Effortless introduction
- ✓ Personal support
- ✓ Possible tax benefits

The advantages for your company at a glance

Boost your employer value proposition

Modern health benefits heighten the employer brand and support recruiting.

Retain employees

Health benefits create health appreciation and strengthen the emotional bond with the company.

Reduce absence from work

Prevention and rapid support help identify health risks at an early stage.

Relief in everyday life and in emergencies

Employees receive immediate assistance with medical and organizational matters.

Holistic approach to health promotion

A comprehensive concept combines prevention, health services and protection in one solution.

Health is not a marginal issue - it affects every employee

42 %

of employees regularly undergo preventive check-ups.¹

2nd most common

cause of death in Germany is cancer (after diseases of the cardiovascular system).²

45 %

of employees perceive corporate health insurance as more important than other company perks such as phones or train tickets.³
