#360° Real estate protection

The entire life cycle of your real estate

Mission

Our long-standing Real Estate Practice Group focuses on the requirements of the real estate industry for an adequatë and sustainable transfer of risk. We apply a 360° consulting approach in dealing with real estate related insurance issues throughout the entire value creation chain of a property, and offer both national and international insurance programs.

With additional services in the area of risk management we provide comprehensive and optimal insurance coverage. Our clients include well-known real estate investors such as house building associations and family offices, as well as asset and property managers.

Added value

- Insurance guide: Insurance manual for managing policies and reporting issues
- Real estate claim control: Digital claim control
- Specialized and experienced claims team, including external claim adjusters and claims settlement authorization
